

End-of-Month Sale of Undergarments Second Floor

Purchase of Women's Dresses That Should be Priced \$15 to \$25 For An End of the Month Sale At \$11.95.

And the fact that they should be marked from \$15 to \$25 will be a force behind this sale that should spur it to one of the greatest sale records of the season.

One of New York's most prominent manufacturers is responsible for the beauty and attractiveness of these styles. But only the Broadway's prestige and ready cash could be responsible for this low price.

Suits are made of light weight French or heavier English serges, in black, navy and wanted colors. Several distinctively different models, including the new 32-inch coats with clever pleated skirt effect.

Among them are cloth dresses—only one or two of a kind, yet representing \$15, \$17.50, \$19.50 and \$25 lines. A clearance that will impress every woman who sees these garments today at \$11.95.

Epoch-Making Sale Silk Coats at \$9.75

Values start at the sale price, and include on up to \$10, \$12.50, \$15, \$17.50, \$19.50 and \$25.00 lines. Black silk coats, or silk bracks. Lovely models of black taffeta, in loose and semi-fitted styles. Today's sale, \$9.75.

Extra—\$5.95 to \$7.50 House Dresses at \$2.95

And now comes a clearance of broken, but desirable, lines of high grade house dresses. Made of imported and domestic ginghams, in plain colors or stripes and checks, in half a dozen different but equally charming models. Today's sale price \$2.95.

\$7.50, \$10 and \$12.50 Silk Jersey Blouses \$5.00

Way under the cost of ordinary making and material. All sizes and lengths. Choose from black, white and many of the season's good colors. Made of pure silk. Note the regular prices—\$7.50, \$10 and \$12.50.

\$3.95 and \$5.00 Silk and Net Waists \$2.48

One big table honored with this bargain lot of waists today at \$2.48. They are waists of tulle, mesh, lace, and other fine materials, as well as fine net waists. Not many styles of a kind. None sold—all fresh. Today, \$2.48.

TIED DAYS—NERVOUS DAYS—BACKACHE DAYS

It used to be thought that a cross, nervous person had a "bad disposition." Now it is known that a nervous condition often results from kidney trouble.

There is a great deal of uric acid made in the human body. It is the duty of the kidneys to filter off this uric acid, but when the kidneys are weak, the poison is peddled about the body by the blood, and it irritates the whole nervous system, causing headache, dizzy spells, fits of "blues," neuritic attacks, rheumatic pain, weak eyesight, dull, tired days, and a constant inclination to worry over trifles.

You feel as if you can't stand any more about you. The little ones often with whom you make mischief are cross and nervous. The business man is ill-tempered with his help, and makes a big fuss over every little thing that goes wrong.

Another effect of uric poisoning is dropsy or bloating—puffy pouches below the eyes, swollen wrists, ankles and limbs.

DOAN'S KIDNEY PILLS

Sold by all dealers. Price 50 cents. Foster-McClellan Co., Buffalo, N.Y., Proprietors.

George W. Patten is Dead.

Passed Away at Home of Brother from Disease Which He Had Fought Twenty Years.

CHICAGO, Sept. 28.—(Exclusive Dispatch.) George W. Patten, brother of James A. Patten, and a partner of the former wheat king, died at 7:30 o'clock tonight at the residence of his brother in Evanston. His death was caused by tuberculosis, from which disease he had been suffering for the last twenty years.

Three weeks ago his condition became critical and grew gradually worse until today the physicians announced that the end was near.

During the afternoon he called the members of his brother's family to his bedside and bade them farewell, knowing that his life was nearing the end. Later he lapsed into a condition of unconsciousness and death came quietly.

Mr. Patten's physical condition was such during the summer he found it necessary to give up his brokerage business. The firm of Patten Bros. then retired from activity in brokerage circles in Chicago. James A. Patten subsequently declared that he had retired in order to be with his brother as much as possible, fearing that his death was only a matter of a few weeks.

George W. Patten had figured largely in the grain business of Chicago and the Middle West for the last twenty years. He was born in De Kalb county, Ill., and came to Chicago in 1877. In 1891 he went to Colorado and it was thought that the disease that caused his death had been completely eradicated. In 1898 he reentered business and the firm of Patten Bros. was established. Since that time he has made his home with his brother.

He left an estate estimated at \$5,000,000.

JAIL DELIVERY FALLS DOWN.

Police Put Sudden Stop to Unionite Plans.

East Side Stockade Is Scene of Comic Attempt.

Ferocious Mob Breaks and Runs in Disorder.

What the police believe was an attempt at wholesale jail delivery was made yesterday at the stockade by a mob of unionists.

The motive of the men was, and before they could reach the East Side Station, patrolmen under Capt. Lehmann were on the ground.

Some of the weaker hearted of the mob turned and ran away on seeing the patrolmen, but the others, under the leadership of Edw. Nolan and Furman, rushed to the front door of the jail.

"Let us in, single file, to visit our comrades," they demanded.

But the answer was cool: "This is not visiting day."

Not waiting for the rowdies to organize an attack, Capt. Lehmann shouted his orders, and the police, with sticks in hand, soon had the ruffians on the run.

Some attempted to escape one way and some another, but the captain ordered that they be kept together and drive in back the way they came.

RETREAT IN DISORDER.

Down the railroad track they hurried, each busily endeavoring to place as many of his companions between himself and the police as possible.

The rout was complete in a very few minutes.

Driven from the vicinity of the East Side Jail, the unionites sought to terrorize the employees at the Llewellyn Iron Works and the Lacy Manufacturing Company by parading past and shouting.

But they had not reckoned on Capt. Lehmann, who had stationed policemen along the path, and when the ruffians became bolder, officers appeared and drove them along toward town.

Capt. Lehmann followed some distance behind the yelling mob, and whenever it appeared resistance was contemplated, his men again put the bullies to flight.

LEADERS ARRESTED.

Having driven the rabble from the vicinity of the stockade, Capt. Lehmann ordered that Furman and Nolan be taken to Central Station.

Furman was taken into the detective office, and Nolan was taken into another private room, where they could be questioned separately.

Later yesterday afternoon Furman and Nolan were locked up in the City Jail, charged with committing a State misdemeanor. Bail was set at \$200 each, which neither was able to furnish.

The two men will be taken into Police Court this morning and a formal complaint made against them.

A charge of holding an unlawful assembly may also be made against them.

LABOR.

ARBITRATION AGREED UPON.

STOCKTON STRIKE IS TO BE SPEEDILY SETTLED.

Employers Will Hold Out for Right to Keep Non-Union Men They Brought Here on the Job but Will Agree to Hire no More of Them, Rejecting Premature.

were members of the First Dragoons, who were the first to occupy Fort Walla Walla. The First Dragoons later became the First Cavalry and by a trick of fate this organization was the last to occupy the grounds. Of the four men still in service, three have their homes in Walla Walla. Dr. Tompkins, the fourth, is a veterinary surgeon in Seattle, but went to Walla Walla to be present when the colors came down for the last time.

LEGACIES.

DIVISION OF LARGE FORTUNE.

FEW TO FINGER THE ELLWOOD MILLIONS.

Three Sons and Three Daughters and Old Folks Home in Illinois Get the Fortune—Heirs Required to Donate Sum to Joseph Glidden Hospital—Sons Give Particulars.

(BY DIRECT WIRE TO THE TIMES.)

DEKALB (Ill.) Sept. 28.—[Exclusive Dispatch.] Wm. L. Ellwood said yesterday that he believed the estate of his father, the late Col. Isaac L. Ellwood, would amount, in round numbers, to \$10,000,000.

The chief beneficiaries under Col. Ellwood's will, according to the son, will be himself and his brother, E. Perry Ellwood, who together will receive \$4,000,000.

William L. Ellwood, who was closely associated with his father in all the latter's business deals, will receive the latter's business, which will include the Spade ranch in Texas, worth \$2,500,000.

E. Perry Ellwood will receive DeKalb county property valued at \$1,000,000, and the Rendrebrook ranch in Texas, valued at \$1,500,000.

Col. Ellwood's daughter, Mrs. Harriet Mayo and Mrs. Jessie Ellwood Ray, will each be given \$1,000,000 in railroad and industrial stocks. James Ellwood Lewis and his sister, Miss Harriet Louise Lewis, whose mother is deceased, will receive as their share \$500,000 in gilt-edged securities.

Col. Ellwood and his wife both made provision in their wills for a DeKalb county old folks' home, to be built on a hill just north of what is known as the Lyons farmhouse. Two hundred thousand dollars was set aside for the purpose—\$100,000 for the purchase of twenty acres of land and setting the buildings, and \$100,000 as an endowment fund.

The heirs are to give \$25,000 to the Joseph Glidden Hospital, to which Mr. Glidden left a like sum.

HASKELL CASE IS DELAYED.

Government Asks for Leave to Examine Witnesses as Result of Court's Ruling on Evidence.

ASSOCIATED PRESS DAY REPORT.

MALESTER (Okla.) Sept. 28.—The hearing in the trial of Gov. C. N. Haskell and others in the Muskogee town lot cases was postponed today until tomorrow.

Federal Judge John A. Marshall granted a request by the government's attorneys that they be allowed time to examine their witnesses before putting them on the stand.

Judge Marshall ruled that the evidence against Haskell would have to be confined to proof of conscious participation in the alleged conspiracy in the three years prior to the return of the indictment against him, which was on May 27, 1909.

S. R. Rush, special assistant to the Attorney General, said the government did not wish to take up the time of the court if the witnesses for the prosecution would be unable to present evidence under the restrictions laid down by the court.

Mr. Rush said he did not wish to state to the court that the government was not sure of its case. Heretofore he said the government expected to use evidence covering the entire period of the alleged conspiracy, which began in 1901. The ruling of the court restricting the prosecution made it necessary to reconsider the government's case.

Judge Marshall's ruling was based on a decision handed down by the Federal Circuit Court of Minneapolis at St. Louis, Mo., last June in what was known as the Lonobough case.

PEDDLER WANTS DIVORCE.

Seeks Decree from Millionaire Wife With Whom He Eloped from St. Louis, Alleges Desertion.

(BY DIRECT WIRE TO THE TIMES.)

ST. LOUIS, Sept. 28.—[Exclusive Dispatch.] Andrew Shiel, Jr., who peddles coffee from a wagon for a company composed of his brother Robert and himself, and who, ten days ago, eloped with his wife, Miss Myrtle Erskine, daughter of Clyde Erskine, owner of the site of the Chemical skyscraper and other downtown St. Louis real estate, has filed a suit for divorce, alleging desertion.

She is described as a witty, suburban belle, beauty. Shiel is with her sister, Mrs. Gray, in Chicago.

50 Per Cent of the Population of the U. S.

live in rural districts remote from physicians or drug stores, and they are obliged to depend upon proprietary medicines to a very great extent.

To the women in these homes such standard remedies as Lydia E. Pinkham's Vegetable Compound come as a boon and a blessing. Records show that it has cured more women of those dread feminine ills than any other remedy.

THE POLITICAL WATCH TOWER.

My friend, the Mayor, has become tangled in his own shoe laces trying to side-step the T. Woolwine question.

The politicians said yesterday that Mr. Alexander has written his resignation as a member of the Republican County Committee.

They say that Tommy has demanded that the Mayor quit the Central Committee because that body has been forced to advocate the election of Capt. Fredericks for District Attorney. Tommy has demanded that the Mayor show his colors by presiding over the Woolwine meeting Friday night.

The Mayor is in a fix. He must either quit the Good Government outfit and throw down T. Woolwine, who shouted his head off for him during the city campaign, and who might be able to do him all kinds of damage in the future.

Or he must quit the County Central Committee and give up his official position in the Republican machine.

I went to see the Mayor yesterday and asked him about it. Oh, how glad he was to see me.

Mr. Lisner was there as representative of the Republican machine, and Mr. Graham, boss of the Good Government Organization, was there to inquire. I guess they wanted to find out which way the Mayor intends to flop. The Mayor would like to find out, also.

I shall have to confess that the Mayor was peevish.

"Who says I'm going to resign?" he snapped. "I'd like to know how folks know so much of my affairs. I don't know what I am going to do, myself."

"Have I resigned from the County Central Committee?" he asked. "Do I intend to? Well, that's different. It don't look like it, does it? I won't say, definitely."

Exit the Mayor.

You see, brethren, it's this way: As I have frequently explained, the Lisnerites started out with the intention of eating Fredericks and other regulars alive, after the primaries.

They became so scared, however, over the threatened defeat of H. Johnson, that they had to abandon the regular candidates and throw their support to Johnson and not jump the ticket and work for Bell.

This was disconcerting all around—except to Tommy Woolwine and the Good Government Organization.

Tommy found himself alienated from his old friends among the Democrats because of his determination to stand as a "Good Government" candidate. Then he found that Lisner and the other backers of the Good Government Organization—including Mayor Alexander—were making treaties of peace with his deadly rival—Capt. Fredericks.

Oh, the howl that Thomas let out! He rushed around among the Lisnerites like an agitated hen. "You promised to support me," he cried. "You promised to make me the reform candidate for District Attorney."

Lisner told him, coolly, to go ahead and be the reform candidate; he (Lisner) is no longer the reform boss. He is the Republican boss.

The Mayor was not so foreboded.

As aforementioned, I understand that Tommy put it squarely up to the Mayor. He demanded that Uncle Aleck make a speech next Friday night at the "Woolwine meeting," introducing him as the bright young angel of reform. His demand was based on the plea of past services rendered to the Mayor by the Good Government Organization.

As far as I can see, my venerable, bewildered friend is now meditating deeply as to which he can throw down with the least chance of a hard come-back—the Good Government Organization or the County Central Committee.

Lisner and all his crowd—I will at least give them the credit of being decisive—have cut the Gordian knot, also the reformers.

Having used the Good Government Organization and the Good Government funds to boost his crowd into power, Lisner has calmly kissed them in the fingers in an eternal farewell.

I wonder if the Mayor, as he meditates upon the most effective way of throwing the book into Capt. Fredericks, happens to remember how Fredericks booted his own ticket at the last county convention in Shriner's hall and nominated Uncle George Alexander for Supervisor.

THE WATCHMAN.

Why Don't You

become a stockholder in the
Largest Co-Operative Building Company In The World
and share in all profits of the company? The stock pays

Dividends of 28 Per Cent. a Year
which are paid quarterly in cash. Our books showed that

5270 Stockholders

were recorded on September 1st, who are satisfied with their investment, and who will share in these cash dividends, and have an interest in our big surplus now amounting

To Over \$2,475,000.00

according to the amount of stock owned by them.

COME IN NOW

before stock is advanced in price. On Saturday morning, October 1st, stock will be advanced 5 cents a share. You can purchase as low as 5 shares, but not over 1000 shares, for cash or upon payment. Stock draws the dividends, whether paid in full or purchased upon payment plan.

Protection To Stockholders

A guarantee fund now valued at over \$45,000.00 is held by the Globe Savings Bank. This fund will protect small stockholders against loss, should they desire to sell their stock, by purchasing the stock. No one has ever failed to receive their money back when they wanted it.

This image shows a vertical, high-contrast scan of a book's spine or cover. The left portion is a light gray, textured surface, possibly leather or cloth, which is divided into sections by thin, dark lines. At the top of this light section is a large, dark, stylized logo that appears to be 'Co'. The right portion of the image is a solid, deep black, representing the other side of the book or a shadow. The overall composition is minimalist and focuses on the textures and geometric divisions of the book's binding.

THE PUBLIC SERVICE—the Courts and Offices.

SUMMARY OF THE DAY.

The Board of Public Utilities has called a conference on safety at grade crossings for next Monday.

Suit was commenced in the Superior Court yesterday by Robert Finney, trustee, to have deeds to about \$300,000 worth of property, conveyed by Charlotte L. Willis to Madeline P. Willis, set aside on the ground of fraud, and to secure the payment of a bequest of \$4000, made by John A. Willis for the benefit of Anna Eliza Finney and her heirs.

Mary Woodman Kilbourne has dismissed her attorneys, Murphy & Pappin, and will appear in Judge Moss's court tomorrow in person to fight the allowing of attorney fees for work done in settling up the estate of her parents.

Isaac R. Smith, in a brief note to his wife, read in Judge Moss's court yesterday, defined the difference between President and husband.

The jury which tried C. Westphal, labor-union picket, in Judge Frederickson's court yesterday, stood eleven to one for conviction and was discharged.

Robert R. Sloan, who purchased a cow which veterinarians later declared was afflicted with tuberculosis, recovered his money in Justice Baird's court yesterday.

AT THE CITY HALL.

CONFERENCE ON SAFETY PLANS.

CITY OFFICIALS AND RAILROADS WILL MEET MONDAY.

Board of Public Utilities Begins Effort to Remove Danger from Intersections of Traffic Lines—Will Seek to Prevent Collisions of Cars.

A conference of railroad officials with the public officials to discuss the safety of traffic at intersections has been called to meet at the office of the Board of Public Utilities next Monday afternoon at 2 o'clock. Arrangements for this conference were made several months ago by the board, and all the companies named representatives, but no progress had been made until the return of President Linsner this week, when the board decided to take up the question at once.

Accordingly notices have been sent out inviting all the representatives of the meeting to study and consider and report comprehensive plans for the betterment of traffic conditions in the city of Los Angeles so as to provide better safety and accommodations for the public, giving first attention to the elimination of grade crossings or the amelioration of dangerous conditions at traffic-intersections.

The reason for a conference was found last winter in the accident where a railroad train struck a Pacific Electric car on Aliso street and many were injured.

President Linsner said yesterday it is not intended that the question of separation of grades shall be taken up now, but that other means of safety will be discussed.

The city officials will be the board, City Engineer Hamilton, Leslie H. Hewitt, special counsel of the utilities board, and T. B. Comstock, engineer of the board.

The representatives of the companies are H. R. Elcomb, district engineer of the Southern Pacific; H. C. Phillips, chief engineer of the Santa Fe; E. M. Jessup, engineer in charge of way of the Salt Lake; G. E. Newell, attorney of the Los Angeles Pacific; George J. Kahra, chief engineer of the Los Angeles Railway; and S. M. Hawkins, attorney for the Los Angeles and Redondo.

The first meeting will be preliminary in arranging a program of discussion and the order of business.

WILSHIRE PAVING.

ASPHALT FOR TWO MILES.

The next big street improvement to be undertaken by the city, approximately in quantity Sunset boulevard and Pasadena avenue, will be Wilshire boulevard from Park View avenue to the west city limits, a distance of two and one-fourth miles, according to the City Engineer yesterday submitted the district to be assessed for the improvement to the Board of Public Works for approval and it will be followed by the ordinance of intention.

According to the plans, Wilshire boulevard is to be paved with a road-bed of asphalt 16 feet wide, except where slopes make the use of brick necessary. The estimated cost of the entire work will be about \$15,000.

As the street is 16 feet wide, the sidewalks will be made twenty-two feet wide and will be constructed under the Johnson Act by a separate proceeding wherever necessary.

HAB NO POWER.

FIRE COMMISSION DECISION.

EMMETT H. WILSON, deputy City Attorney, will advise the Fire Commission at its session this morning that it has no jurisdiction over school buildings in the matter of requiring safeguards against fire.

He will hold that the jurisdiction is vested in the Board of Public Works and the Building Inspector, who may enforce all the provisions of the building laws applicable to school buildings.

He will advise the commission, however, that any new precautionary measures may be carried into effect by a new ordinance.

The decision was asked because of the recent investigation of the schools, public and private, and hospitals and orphanages made by the Fire Chief and the battleship after which, in the judgment of the commission, disclosed dangerous conditions demanding immediate attention. Cooperation was offered by the Board of Education, but was not accepted by that body.

Wilson as deputy City Attorney is also the adviser of the Board of Education, and in many matters thereof, the law was changed to give the board its fund through county assessment. The District Attorney has been giving most of the service.

PARK SALARIES.

COMMITTEE GIVEN UP.

The Supply Committee met to finish its work in "revising" the city's salary list yesterday. It did finish all except the park department, and was declared too hard a nut to crack and was left over until a later meeting.

The park department asked a re-consideration of its salary list, a com-

mittee with the amount allowed for salaries by the budget, and found that, after \$3000 had been increased, the budget was still \$70,000 in excess of the budget allowance. Unable to make a reconciliation of the figures, the committee "gave up."

Increases were recommended for C. B. Raitt, playgrounds superintendent; Frank Wellington and Miss Gertrude Williams of the City Clerk's proof room, and the only cut was that of Paul Plummer, captain of detectives. The committee says this cut was made by the Finance Committee before it reached their hands.

Vermont Avenue Paving.

Until the City Attorney decides the question of the dedication of Vermont avenue, the City Engineer cannot make progress with the paving of that street between Santa Barbara avenue and Blauvelt avenue. The road was formerly the old "Green Meadow Road No. 1," and was declared a highway sixty feet wide by the City Engineer last year. The sufficiency of this dedication is the question now before the City Attorney.

The Southwest Improvement Association has asked that the paving be advanced and the board has referred the whole question to the legal department again, with request for an early answer. Vermont avenue is now eighty feet wide between the points chosen for the improvement.

Approves Standpipe Plans.

The City Engineer has approved the plans of Chief Eley for a standpipe system for the district with the exception that he does not want the pipes to be so placed that they will mar the portals of the Third-street tunnel. At the present time, he finds no reason to prevent the use of the front, as it will soon be replastered and the pipes may be concealed.

Copp Makes Denial.

A. J. Copp, Jr., representing the owners of the City Hall, has notified the Council that the structure is not one foot on the City Hall land, and that he will resist any attempt to so declare it.

AT THE COURTHOUSE.

NEW TANGLE IN WILLIS ESTATE.

SUIT IS BROUGHT TO COLLECT CLAIMED TRUST FUND.

Effort Is Being Made to Have Certain Deeds Set Aside That Plaintiff May Collect Money Alleged to Be Due Under Terms of Mother's Will. Many Ramifications.

Another action involving the disposition of the property left by John A. Willis was filed in the Superior Court yesterday.

The object of the latest suit is to secure the payment of a bequest made by John A. Willis to Charlotte L. Willis in trust for the benefit of Anna Eliza Finney and her heirs. The amount is \$4000, devised in 1891, and afterward, it is charged, mingled with the personal money of Charlotte L. Willis and unaccounted for. It is further alleged that a number of transfers of real estate made by Charlotte L. Willis to Madeline Frances Willis, a daughter, are fraudulent, and the prayer of the petition is to set them aside, and declare them null and void.

The action is brought by Robert Finney, as trustee of Harry Finney, against Madeline Frances Willis and Louise E. M. Brainerd, executrix of the last will and testament of Charlotte L. Willis.

John A. Willis, husband of Charlotte L. Willis, died in this city on November 28, 1891, and in his will was provided that he bequeathed to Charlotte L. Willis \$4000 in trust to invest for the benefit of Anna Eliza Finney of the county of Los Angeles, California, county, New York. It is further declared that at least \$3000 a year must be paid to Mrs. Finney for her maintenance and the balance of the income. Upon the death of Mrs. Finney the money was to go to the children, Harry Finney and his heirs.

It is set out in the petition that the trust was accepted by Mrs. Willis, who agreed to hold the money for the use and during the life of Mrs. Finney did pay over the income as provided for in the will.

Mrs. Finney, Mrs. Willis devoted the \$4000 to her own use and mingled it with her own belongings.

Anna Eliza Finney died in St. Petersburg, Florida, in 1906, and Frank Bryson was named as the administrator of her estate. By his will Mrs. Finney's money referred to was left to the son, Harry Finney.

In October, 1906, Charlotte L. Willis died in Los Angeles, and Louise E. M. Brainerd, one of the defendants, was named as the executrix of her estate. By her will Mrs. Finney's money referred to was left to the son, Harry Finney.

In October, 1906, Charlotte L. Willis died in Los Angeles, and Louise E. M. Brainerd, one of the defendants, was named as the executrix of her estate. By her will Mrs. Finney's money referred to was left to the son, Harry Finney.

The two were married in Brooklyn, N. Y., in June, 1891, and Mrs. Walker has been a resident of this city about three years.

The plaintiff testified that her husband hated children, and would have none of them about to worry him. To that end they did not live together as man and wife. When asked by her attorney:

"You wanted children?" she impulsively answered: "I did."

GETS HER DECREE.

EXTREME CRUELTY CHARGED.

Julius E. West, United States Marshal at Norfolk, Va., was defendant in an action for divorce in Judge Conley's department. The wife, Gertrude E. West, was given an interlocutory decree on the ground of extreme cruelty. The matter is now left for determination at some future time.

The Wests were married in Redwing, Minn., in 1881, and grew up and went to school together. Mrs. West said that when they moved to Norfolk, about twenty years ago, they were very prosperous, and had a home in that city worth \$25,000. She says she was induced to sign her rights away to her husband, who then came with her two children to Los Angeles.

CRIMINAL MATTERS.

IN JUDGE DAVIS' COURT.

Stanford Lindley, charged with burglary, pleaded guilty yesterday morning. The application of Norman West, who pleaded guilty to forgery, for probation, was fixed for hearing October 10.

The jury in the case of P. F. Nace, charged with failing to provide for his minor children, brought a verdict of guilty.

PERCENTAGE DUE.

WYATT ESTATE MUST PAY.

In Judge Rives' court yesterday the administrator of the estate of H. C. Wyatt, lessee of the Mason Opera-house, was ordered to pay a note dated October 15, 1909, to Mrs. Kate Mason, amounting to \$17,725.50, due under the terms of the lease by which Wyatt conducted the playhouse up to the time of his death.

The money demanded is alleged to be 35 per cent. of the net receipts of the engagements played by Olga Netherland, "The Shubert King," the "X" idish players and Louis James.

The papers in the case indicate that Wyatt held the Mason Opera-house under a five-year lease entered into in March, 1908, with the agreement that only first-class attractions were to be presented.

On the whole, the case is a rather complicated one, and the court is expected to take some time to decide it.

One witness said that Mrs. Hook had telephoned him at a bath prior, inquiring about her husband, and she said he would not come out. One of the witnesses asserted that she said he was angry because she had gone out with O'Keefe.

Carson suggested that his spouse should take the jug of wine, which was reclining in the bottom of the wagon, to Hook, and a wig would probably cheer him up. She did so and it produced the desired effect.

The men decided to drive to Carson's home to look at a sick horse, leaving the women to entertain each other. They had just returned to the Hook house, when an automobile came thundering down the street.

O'Keefe leaped out, leaving his chauffeur to care for the machine. One witness said that Mrs. Hook had telephoned him at a bath prior, inquiring about her husband, and she said he would not come out. One of the witnesses asserted that she said he was angry because she had gone out with O'Keefe.

FOUND GUILTY. In Judge Davis' court yesterday Albert Wilson was found guilty of rape. It was shown that he had a victim who was less than 16 years old. Wilson will be sentenced Saturday. Efforts will be made to have him released on probation.

THE JUSTICE COURTS.

JUG. JOY RIDE AND FRACAS.

PARTY OF MERRYMAKERS LAND IN THE COURTROOM.

Automobile, Dictated Letter, Movable Furniture and Damaged Man All Are Part and Parcel of Complaint—His Honor Distrusts Some Testimony and Continues Case.

A joy ride, jealousy and a jug of wine caused John Carson to be taken before Justice Baird yesterday, charged with having committed assault on Tom O'Keefe.

About ten days ago, Mr. and Mrs. Carson drew up in front of the house on the Mission road, kept by Mr. and Mrs. James A. Hook. The mistress went out to greet them. They inquired for her husband and she said he would not come out. One of the witnesses asserted that she said he was angry because she had gone out with O'Keefe.

Carson suggested that his spouse should take the jug of wine, which was reclining in the bottom of the wagon, to Hook, and a wig would probably cheer him up. She did so and it produced the desired effect.

The men decided to drive to Carson's home to look at a sick horse, leaving the women to entertain each other. They had just returned to the Hook house, when an automobile came thundering down the street.

Carson suggested that his spouse should take the jug of wine, which was reclining in the bottom of the wagon, to Hook, and a wig would probably cheer him up. She did so and it produced the desired effect.

The men decided to drive to Carson's home to look at a sick horse, leaving the women to entertain each other. They had just returned to the Hook house, when an automobile came thundering down the street.

O'Keefe leaped out, leaving his chauffeur to care for the machine. One witness said that Mrs. Hook had telephoned him at a bath prior, inquiring about her husband, and she said he would not come out. One of the witnesses asserted that she said he was angry because she had gone out with O'Keefe.

PROSECUTION HITS COMMERCE?

STOWAWAY CASE BRINGS PLEA FROM VICE-CONSUL.

British Representative Says Affair Is of International Importance and Prosecution of Master of English Bark Will Affect Shipping to This Port—To Press Suit.

ANCHORS HIM.

The first judicial hearing in this district, brought under the provisions of the Federal law, which makes it a misdemeanor for the officer in charge of a foreign ship to allow a stowaway to escape after he has been formally placed in his custody, was held before United States Commissioner Van Dyke yesterday.

The defendant is O. E. Couture, master of the British bark Formosa, which lies at anchor in the port of Los Angeles. He must answer to the charge before Judge Wellborn in the District Court.

The sailing of the bark is now long overdue because of the offense which is charged against the master. If he is found guilty, he will be fined \$500, or imprisoned for six months, or both.

Less than two weeks ago the master reported to United States Marshal Youngblood that several of his men had deserted. When four were arrested in this city, the officers took them to a company, who were found to have sailed from England as a stowaway. He was given a hearing, and it was decided to deport him, on the ground that he was an undesirable citizen and likely to become a public charge and a burden on the community.

About two days before the vessel was to depart, he took sudden leave. The Federal authorities immediately exercised due care in restraining him.

GETS MONEY BACK.

Purchaser of Cow Afflicted With "Enlarged Veins" Recovers in Justice's Court.

sumed work about ten days ago, and the Devil's Den Consolidated has bonded its holdings to Mr. Yaraw, formerly of the Standard Oil Company.

Price of Copper.
Word comes from the East to the effect that the American Metals and the American Smelters Companies are to sell electrolytic copper at 12 1/2 cents a pound.

SOIL CONVENTION.
Important Gathering of Farmers and Fruit Growers in This City Next Week.

The soil convention, which is to be held in the Chamber of Commerce October 1, 2, 3 and 4, and under the auspices of the State Experiment Station of the University of California, promises to be a gathering of great importance. It will be largely attended by farmers from all over this part of the State, and two sessions will be held each day, at 9:30 a. m. and 1:30 p. m.

The object of the convention is to bring before the growers the latest achievements in soil science, and to present, in their proper relationship, all the factors of soil management. All persons interested in the production of crops from the soil are invited to attend.

Dean Wikison of the State University will deliver the opening address, and among other notable names among the speakers are Dr. F. H. King of the University of Wisconsin; Dr. Cyril G. Hopkins, University of Illinois; Dr. C. B. Lipman, University of California; Prof. J. H. Norton, in charge of the experiment station at Riverside; J. W. Jeffrey, State Commissioner of Agriculture; Prof. A. J. Cook and C. C. Teague.

SAN JOAQUIN VALLEY.
CORCORAN HAS FIRST RAID.

LEADS COUNTY IN ENFORCEMENT OF NEW ORDINANCE.

Large Quantity of Intoxicants of Various Kinds Found in Course of Search Made Under Warrant by Deputy Sheriff and District Attorney—Proprietor Placed in Jail.

SPECIAL CORRESPONDENCE OF THE TIMES.)
CORCORAN, Sept. 22.—This town enjoys the distinction of being the first locality in Kings county in which a violation has been detected of the new ordinance which prohibits the sale of intoxicants outside of incorporated towns or cities.

"Fred Merritt, proprietor of a pool hall, has been suspected for some time and yesterday Deputy Sheriff Farner, accompanied by Dist. Atty. Irwin armed with search warrants, arrived from the county seat and began a systematic search of Merritt's premises. On the bar in the pool hall there were found several bottles of whiskey and beer with no evident attempt to conceal them.

When these were found, Merritt insisted that they comprised all the intoxicants on the place. This statement was taken with reservations, and a further search of the room revealed three cases of whiskey, six cases of beer, nearly all of which was in soda bottles, and one jug of wine.

Merritt pled guilty in declaring a wish to plead guilty and in the justice court within an hour afterward he was fined and paid \$120.

CONGREGATIONALISTS MEET.
COAST CONFERENCE GATHERING (SPECIAL CORRESPONDENCE OF THE TIMES.)
FORTYVILLE, Sept. 22.—At the second general session of the Coast conference of the Congregational churches, which is being held in Fortyville this week, the officers of the convention were elected as follows: Rev. Miles B. Fisher, Berkeley, moderator; Rev. B. M. Palmer, Fruitvale, vice-moderator; Rev. Benjamin Gould, Fresno, scribe; Rev. B. Hartshorn, Chico, vice-scribe.

Rev. Albert G. Bryant, pastor of the First Church of this city delivered the formal address of welcome at the session yesterday and a response on the part of the delegates was made by Rev. Miles Fisher. At the afternoon session Judge Curtis D. Wilbur, of Los Angeles spoke.

At the evening session there were two addresses, one by Rev. W. H. Dunlap of Tulare upon "Strategy in State Work." This was followed by an oration by Rev. C. G. Chertroff of Sunnyvale, on the "Church and the Rural Movement."

SAVING ON SEWERS.
By virtue of unexpectedly low bids for the construction of the extensions to the Porterville sewer system, this city finds itself better off financially than was estimated yesterday by almost \$5000. When the bids for pipe were opened, it was found that all of the material for laying the line can be purchased for \$14,538, while the laying and all other work will be done by a Chico contractor for \$13,811, making the total cost of the extensions to be laid this year but \$34,349. As it was estimated that the cost of the work, with material, would be \$40,000 and as the sewer funds contain \$2780 surplus from work done last year, there is now a neat sum of approximately \$3000 with which to care for unexpected emergencies.

MERCHANTS PROTEST.
At a meeting of the Merchants' Association, which was held last night, it was unanimously voted that a committee be appointed to appear before the City Council at the next session and make vigorous protest against the new license law which is to go into effect on and after October 1. According to the terms of this new law, the licenses of merchants are based upon the average monthly sales, and this is one feature of the law which the merchants especially dislike.

At the last meeting of the City Council, on instruction from the City Attorney, the city license collector was instructed that in all cases of doubt, he should rate the business concerns which refuse to give their rating at \$40 per quarter, which is the highest priced license under the new law.

LOOK FOR EARLY FRUIT.
According to reports which are being compiled by the Exchange, the Tulare county citrus fruit crop will be from three to four weeks earlier than the normal this year and there is every prospect that fruit in the very best of condition, fully ripe and with a good color will be available for the Thanksgiving market.

It is predicted now that the bulk of the crop, if desired, can be picked as early as October 15, although none of the packers have stated that they will begin the harvest of the crop at that early date.

Condition of the crop this year is due in a large degree to the exceptionally warm weather and other ideal conditions of the summer. In some of the

orchards the fruit is already in color and with sufficient sugar to stand curing at the present time.

Slayer Exonerated.
BAKERFIELD, Sept. 22.—J. C. Loftis, charged with the murder of Joseph Lafferty on the 4th inst., was acquitted in a justice court here today on the ground of self-defense. Testimony of witnesses showed that Lafferty had been the aggressor and had choked Loftis twice the night before. The next morning he repeated his attack when he was shot by Loftis. A quarrel over the treatment of a horse was the cause of the trouble.

Buyers Large Tract.
CARUTHERS (Cal.) Sept. 22.—C. P. Blahemore of Los Angeles has bought just east of this village a 4000-acre tract and in company with C. J. Townsend, also of Los Angeles, an extensive colonization scheme is to be placed on foot by him in the coming early spring.

The price at which the land was sold was not given out. It is known, however, that the price included a perpetual water right in the Fresno Irrigation Company's canal, and when the land is eventually parceled, it will include a perpetual water right also.

Shot Fly Into Eyes.
VISALIA, Sept. 22.—Claude H. Blair, a rancher of the Christiana ranch, was accidentally shot by his brother, Frank, while hunting Tuesday afternoon, and as a result may lose the sight of one and possibly both eyes.

The brothers were out after doves and after shooting side by side for some little while, separated and started toward the opposite end of the field. Frank retraced his steps part way, as did his brother, their view one of the other being shut off by a clump of brush. Frank fired at a dove, almost the entire charge of shot lodging in the breast and face of his brother who was but a few paces away.

Physicians who hurried to the Christiana place to care for the wounded man are pessimistic about saving his sight.

Propose Cannery.
TULARE, Sept. 22.—At a mass meeting of fruit growers and members of the Chamber of Commerce held at Goldman Hall last evening there was present a large and enthusiastic audience to the disbandment here of a 40,000-case vegetable and fruit cannery.

J. W. Rath, who for twelve years was manager of a branch cannery here of the California trust, delivered an address, in which he stated that there is no question that produce enough is raised in the Tulare district to support such an enterprise.

A committee of three is to be appointed from the Board of Trade to solicit subscriptions for funds to build and equip the building.

GRANTS PHONE FRANCHISE.
YUMA, Ariz., Gives Concessions to Long Distance Enterprise Over Its Thoroughfare.

SPECIAL CORRESPONDENCE OF THE TIMES.)
YUMA (Ariz.) Sept. 22.—The City Council of Yuma at a meeting held last evening granted to the Consolidated Telephone Company a franchise for the erection of telephone wires covering all the streets of the town, by passing an ordinance to this effect which must be ratified by the citizens of the town at an election to be held November 5 next, to be valid.

The Consolidated company is a long distance telephone enterprise and is now engaged in constructing a line from Denver to San Francisco, via Los Angeles, with a full transcontinental line in prospect. The local franchise desired is a protective measure.

George J. Crouch, a member of Yuma lodge of Elks, and for a number of years a freight conductor between Yuma and Indio, died at Omaha, Neb., several days ago.

Adolph Martines, charged by Deputy United States Marshal Henry Levy with selling liquor to Indians, has been held to the Federal Court.

J. J. Waddell, president of the Southwest Land and Development Company, who returned several days ago from Mankato, Minn., has established an office of the company in Los Angeles, in which he will devote his personal attention to the company's business.

Don't live in the ox-cart days—the days of long ago. Join the well-dressed procession of today.

The brilliant exhibit of women's ready-to-wear suits, dresses and gowns shown on Broadway this week is proof of the passing of the last trace of "ye olden" time dress-making methods and just here is a lesson to men and young men.

Why gentlemen, you don't have your shoes made to measure any more, the old-time shoemaker has joined the "silent majority"—gone with the ox-cart, the dressmaker, the tailor, et al.

Tis a new era—an era of the now, and in men's apparel, the King among Ready-for-service tailor-craft today is Benjamin's clothes.

They are the very last word in correct attire. They are within your reach, for look at the price

CAR-WEARY WINNERS.
CARSON SHOWS
IN FINE FORM.Holds the Angels Down to
Four Useless Hits.Castleton Loses His Game in
First Inning.Contest Is Fast and Snappy
from the Start.

Vernon, 3; Los Angeles, 1.

Kilt Brashear tossed the ball for Carson's head at first in the seventh inning, yesterday, and as a result the Angels managed to score one run and prevent a shut out that Carson was trying to hand them. It was a very faint squeak that scared the home away from a noiseless beating. There was no trimming for Carson yesterday, and the way he heaved could not make anyone guess that he had ridden two or three days on a train to pitch the game. There were four hits off him and the unusual thing about the game was that none of the swats had anything to do with the run the locals got.

Castleton was just about as good, but Vernon stepped on him in the first inning and he could not get over the damage. He had scarcely taken a long breath in the first before Burrell had singled. Then Ross was hit by pitcher and following Roy Brashear's pop out, Coy spanked the ball to the Chutes gate for a double that sent in Burrell and Ross. The game was really over right there, for the Angels could not get to the plate and the remainder of the game to look them two in the eyes.

It was very much of a struggle between the fingers, Castleton and Carson, and while Carson's game was a fast and snappy one. The boys seemed full of ginger at times and the play looked like the first of the season. Instead of what came near the finish, however, made the only blunder for the Angels on an overthrow to the plate, and this kind of work was in marked contrast to what we have seen here during the last two weeks.

HOGAN'S NICE THROW.
The locals had a swell chance to score in the second inning, but old Hog Hogan stopped it by a fine throw to second. Dillon had hit to center and advanced to second on a wild pitch. He got away with Hogan and played far off the bag and Hog threw him out. Then Murphy flew to right and Castleton doubled to left on a hard poke that would have scored Dillon easily.

Howard opened the eighth with a grounder toward right field and, not being able to get to first base in time with the ball, which he got, Kilt Brashear tossed it to Carson who was running to cover the bag. The toss was such a high one that the ball went over Carson's head to the grandstand and Howard ran to third base, scoring a moment later on Murphy's sacrifice fly to right. Castleton's Delmas was hit by pitcher, advanced on a sacrifice and got to third on Castleton's single, but that was the dual attempt at making a run.

The last run of the game started with Castleton's single to right. Burrell sacrificed and when Hallinan threw the ball to first he left Hallinan unscathed and Carlisle beat him to it. Brown batted for Ross and connected a hot grounder to Howard, which was momentarily juggled. Howard could easily have thrown out Brown at first but he did not get him. The score:

HOLDING BREATH.

MANY ERRORS
LOSE CONTEST.Portland Being Overhauled
by Oakland Team.Jack Lively Holds Beavers
Safe After First.Garrett Relieves Steen in
Disastrous Second.

BY DIRECT WIRE TO THE TIMES.

PORTLAND, Sept. 28.—[Exclusive

Dispatch.] Satisfied with their good

fortune of the previous day and the

fact that they scored two runs right

off the reel against Jack Lively today,

the Portland Beavers laid off playing

good baseball and just kicked and

booted the ball all over the inclosure

throughout the balance of the game,

and their erratic conduct resulted in

the Oakland bunch piling up eight

runs as against three registered by the

home guard.

Ryan's single, a fielder's choice on

Olsen's sacrifice, Lively's error and a

single by Hettler, who played again

today, but without a protest from Vol-

verton, gave Portland two runs in the

first inning.

Baseball rules were totally ignored

by the home guard in the second. With

the first two Wolverines stowed away

in the second, the Beavers went stro-

king and allowed five scores to fall

by before the final man of the regu-

late three was retired.

Hogan was the first Oak up and he

scored on Or, and Wolverton was dis-

posed of, Steen to Rapps. With two

out the situation looked fine for Port-

land, but Cutshaw singled to left and

Swander worked Steen for a pass,

which put two men on the paths with

Mitze up.

The catcher hit a slow bouncer over

second which Olsen kicked around to

enough to allow Cutshaw to score and

Swander to take third, both traveling

two bases on the dinky hit. Lively

scored on a sacrifice, Swander, and

Maggett slammed one past Sheehan

which also went through Kreuger, and

the batter as well as Mitze and Lively

scored. Steen, who was retired by

McCredie then retired Steen and sub-

stituted Garrett.

Portland's third run came in the

fifth when Olsen's single, followed by

a pass to Kreuger, and Sheehan's sin-

gle, was turned into a run, and Kreu-

ger coasted off a tally by trying to

score behind Olsen, only to be thrown

out on a clutch play from Swander to

Mitze.

In the eighth inning Pryl hit a fair

GRAND CIRCUIT. HARTLE WINS UNEXPECTEDLY

**ate General H. and High
Grade Entries.**

**Again Faster Than In
Dudie Archdale.**

**Harvester to Go After
Record Today.**

(ASSOCIATED PRESS NIGHT REPORT.)
KIDUS, Sept. 28.—Startle, a
two-year-old gelding, raced by Joe
of Toledo, astonished an
crowd at the Grand Circuit
today by capturing the first two
of the 2-00 trot from a high
grade, in which General H. was
to have the best chance.

His victory was the last one
of the season.

Winner over Dudie Archdale
in two of three heats, made
the straight today, when they
were the Buckeye Stake of \$5000.

The Harvester will start
tomorrow to lower the world's stand-
ard of 2:01. Results:

2:01 trot, 2890, three heats Mon-
day, won, Admiral Red,
Lady Willow third; best time,
2:01.

2:02 trot, 2890, second division:
1st, won, The Exponent second,
2nd, 2:02, 2:03, 2:04, 2:05, 2:06,
2:07, 2:08, 2:09, 2:10, 2:11, 2:12,

Lively Presentiment of the Day's Interesting Happenings in Los Angeles County.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

PARADENA.
CALL PASTOR
FROM BUFFALO.PARADENA PRESBYTERIANS GET
ACCEPTANCE.

Pulpit Committee Considers Between Seventy and Eighty Names Before Making Selection—Position Will Carry a Salary of Seventy-five Hundred Dollars Per Year.

PARADENA, Sept. 28.—The new pastor of the Pasadena Presbyterian Church is to be Rev. Robert Freeman, new pastor of the Lafayette Avenue Presbyterian Church of Buffalo, N. Y. The call was extended to him some time ago by the Pulpit Committee of the church, and it has been accepted. The salary will be \$7500 per annum. He will preach his first sermon here October 9.

The pulpit has been without a pastor since the first of last April, when James McLeod, who had been pastor a good many years, resigned to become pastor of the Dutch Reformed Church of New York City.

Rev. Mr. Freeman is said to be one of the strongest of the young preachers in the East. He is a native of Scotland, a graduate of Princeton Theological Seminary, and has received his master's degree from that university. He has been pastor of the Lafayette Avenue Presbyterian Church for four years. The church has a membership of 300 and a Sunday-school membership of 1600.

Mrs. Freeman was born in Buffalo and is a graduate of Vassar. Mr. and Mrs. Freeman have been married a little over one year and are the proud parents of a boy.

The new preacher will arrive in Pasadena the latter part of next week for a visit of four days to look over his new field. He will be met at the depot by a large delegation of the members of the church, at which time his appointment as pastor, signed by the church authorities, will be handed to him.

The Pulpit Committee, whose duty it has been to select a preacher to fill the pulpit made vacant by the resignation of Rev. Mr. McLeod, reports a strenuous task to find just the right kind of man. The committee did not want to get a pastor who had already made a great reputation as a preacher. On the other hand, they wanted a man who gives excellent promise of becoming a powerful divine. With these conditions in mind, the committee has secured North America according to the statement of one of the committee members, and they firmly believe that Rev. Mr. Freeman fills the requirements. The personnel of the committee is composed of Dr. John Willis Hart, John B. Merriam, Willis R. Fry, Arthur Flemming and Hollway I. Stuart.

A meeting of the membership of the church was held last night and Dr. Hart made the announcement of the selection of Rev. Mr. Freeman by the committee. Following the announcement a vote of the membership was taken and it was unanimously voted that the selection of the committee be the choice of the members.

It was stated last night that the committee has considered between seventy and eighty names, but that an official call has been extended to none other than Rev. Mr. Freeman. It was also stated that the committee had a hard time persuading him to accept the call and leave his church in Buffalo, where he is said to be very popular, and it is believed a very strong effort will be made to induce him to stay.

W. L. Green, one of the trustees of the church, announced last night that two of the large Presbyterian churches of Chicago, one in New York City and one in Pittsburgh, have been made a strong effort to get Mr. Freeman.

Rev. James Coffin Stout, pastor of the Placer Memorial Presbyterian Church of St. Augustine, Fla., will fill the pulpit of the Pasadena Presbyterian Church during October.

WATER COMMITTEE TO MEET.
The Water Committee of the Board of Trade will hold its first business session at the Board of Trade room tonight. The first matter of business to be transacted will be the appointment of various subcommittees to work out the details of the campaign for a permanent water supply for Pasadena.

Chairman Hodge states that all the meetings of the committee will be open to everyone who wants to attend, and that anyone who is not a member of the committee who has suggestions to make will be welcome to make them.

The object of our committee, as I understand it, is to get together to work out this very intricate problem of forever settling the water supply for our town, that it may grow and become a great city. Fully realizing it will be a difficult task, and we need the assistance and cooperation of every citizen of the city. It is not to be supposed that the committee knows it all. If our work is to be the success of the campaign, we need the hearty assistance of everyone.

The two open meetings of the Los Angeles City Council and Mayor, which have been held for the purpose of discussing the distribution of the Owens River water, have been attended by a large number of members of the Water Committee of Pasadena, and many things have been learned which will be of benefit in trying to settle Pasadena's predicament. The committee now feels that it knows where Los Angeles stands, and will try to shape its work accordingly. It is conceded by practically every member of the committee that the city and the surrounding towns will have to have an additional water supply.

BIG ADVERTISING PROJECT.
President Hogan of the Tournament of Roses Association has just completed arrangements whereby Pasadena, and especially the Tournament of Roses, will be advertised to the ends of the earth. During the coming winter, the Great Polynesian Company will photograph motion pictures of the great show, including not only the monstrous parade of roses, but the Roman chariot race and all the other famous attractions which will be performed at Tournament Park. The great feat has already been advertised extensively, but the intention of the directors to give the countless millions of people who are unable to visit the Crown City in person an opportunity to see the gorgeous spectacle of miles and miles of vehicles backed from stem to stern with fresh roses is a new and interesting feature of the city on New Year's Day. The famous Roman chariot race, which are almost an exact reproduction of the days of "Ben

He has been pastor of the Lafayette Avenue Presbyterian Church for four years. The church has a membership of 300 and a Sunday-school membership of 1600.

Mrs. Freeman was born in Buffalo and is a graduate of Vassar. Mr. and Mrs. Freeman have been married a little over one year and are the proud parents of a boy.

The new preacher will arrive in Pasadena the latter part of next week for a visit of four days to look over his new field. He will be met at the depot by a large delegation of the members of the church, at which time his appointment as pastor, signed by the church authorities, will be handed to him.

The Pulpit Committee, whose duty it has been to select a preacher to fill the pulpit made vacant by the resignation of Rev. Mr. McLeod, reports a strenuous task to find just the right kind of man. The committee did not want to get a pastor who had already made a great reputation as a preacher. On the other hand, they wanted a man who gives excellent promise of becoming a powerful divine. With these conditions in mind, the committee has secured North America according to the statement of one of the committee members, and they firmly believe that Rev. Mr. Freeman fills the requirements. The personnel of the committee is composed of Dr. John Willis Hart, John B. Merriam, Willis R. Fry, Arthur Flemming and Hollway I. Stuart.

A meeting of the membership of the church was held last night and Dr. Hart made the announcement of the selection of Rev. Mr. Freeman by the committee. Following the announcement a vote of the membership was taken and it was unanimously voted that the selection of the committee be the choice of the members.

It was stated last night that the committee has considered between seventy and eighty names, but that an official call has been extended to none other than Rev. Mr. Freeman. It was also stated that the committee had a hard time persuading him to accept the call and leave his church in Buffalo, where he is said to be very popular, and it is believed a very strong effort will be made to induce him to stay.

W. L. Green, one of the trustees of the church, announced last night that two of the large Presbyterian churches of Chicago, one in New York City and one in Pittsburgh, have been made a strong effort to get Mr. Freeman.

Rev. James Coffin Stout, pastor of the Placer Memorial Presbyterian Church of St. Augustine, Fla., will fill the pulpit of the Pasadena Presbyterian Church during October.

WATER COMMITTEE TO MEET.
The Water Committee of the Board of Trade will hold its first business session at the Board of Trade room tonight. The first matter of business to be transacted will be the appointment of various subcommittees to work out the details of the campaign for a permanent water supply for Pasadena.

Chairman Hodge states that all the meetings of the committee will be open to everyone who wants to attend, and that anyone who is not a member of the committee who has suggestions to make will be welcome to make them.

The object of our committee, as I understand it, is to get together to work out this very intricate problem of forever settling the water supply for our town, that it may grow and become a great city. Fully realizing it will be a difficult task, and we need the assistance and cooperation of every citizen of the city. It is not to be supposed that the committee knows it all. If our work is to be the success of the campaign, we need the hearty assistance of everyone.

The two open meetings of the Los Angeles City Council and Mayor, which have been held for the purpose of discussing the distribution of the Owens River water, have been attended by a large number of members of the Water Committee of Pasadena, and many things have been learned which will be of benefit in trying to settle Pasadena's predicament. The committee now feels that it knows where Los Angeles stands, and will try to shape its work accordingly. It is conceded by practically every member of the committee that the city and the surrounding towns will have to have an additional water supply.

BIG ADVERTISING PROJECT.
President Hogan of the Tournament of Roses Association has just completed arrangements whereby Pasadena, and especially the Tournament of Roses, will be advertised to the ends of the earth. During the coming winter, the Great Polynesian Company will photograph motion pictures of the great show, including not only the monstrous parade of roses, but the Roman chariot race and all the other famous attractions which will be performed at Tournament Park. The great feat has already been advertised extensively, but the intention of the directors to give the countless millions of people who are unable to visit the Crown City in person an opportunity to see the gorgeous spectacle of miles and miles of vehicles backed from stem to stern with fresh roses is a new and interesting feature of the city on New Year's Day. The famous Roman chariot race, which are almost an exact reproduction of the days of "Ben

LONG BEACH.
SHUNTS CHARGE
OF BAD CHECK.VAIN EFFORT OF BROTHER TO
HELP DEFENDANT.

Man Smeared With Blood and Seized Evidence of Hard Usage Tells Story of Assault to Police. Investigation Develops an Odd Reason for the Tale.

LONG BEACH, Sept. 28.—His effort to save his brother from a felony charge almost got A. M. Yost of Santa Ana in serious trouble today in Justice Underwood's court. Yost was charged with uttering a check on a Santa Ana bank in which he had no funds, signing his brother's name. In court this morning Deputy Dist. Atty. North ordered a dismissal of the charge, and Yost was released.

The brother (A. M. Yost), who is a man of some means, and has helped his brother out of previous trouble, went on the stand and swore that he had authorized his brother to draw on his funds in bank at any time. North stopped proceedings and instructed the issuance of warrants charging the two Yosts with conspiracy to defraud the Santa Ana Bank, in that A. M. Yost had no account in the bank when he told his brother to sign funds.

Both brothers were served in open court, and then James Yost offered to tell the truth if the new charges were withdrawn. This was agreed to, and Yost with the charge of felony conspiracy, went on the stand and said that he was drunk when he passed the checks, and had drawn on the Orange County Bank instead of the Pasadena Bank. The court held him to answer to the Superior Court in \$1000 bond, while the charge against his brother will be pressed. Young Yost is a straight fellow when sober, and it is likely that probation will be recommended in his case.

BEATEN IN SAN PEDRO.
Dave Deenan, living on West Fifth street, appeared at police headquarters last night and told an incoherent story of having been assaulted as he stepped from the San Pedro car. Second and Pine avenues, and beaten severely. He was bloody and bore evidence of hard usage, but investigation proved that Deenan had got thumped in a San Pedro saloon, and had to tell an assault story to explain his condition to his sister, who had called on him to the police for the arrest of his supposed assailant.

TEST OF RIGHTS.
The injunction suit brought by the San Lake Lake Railroad against City Tax and License Collector Philip C. Smith, in the case of 1901, is a test case to settle the validity of the act. The San Lake Lake Railroad is a corporation organized under the laws of the United States Constitution, which provides that no property shall be taken for public use without due process of law. The railroad is affected in the company's right of way in the western part of the city. The company has made no protest against other property on which the same assessment has been placed. The City Attorney this morning received notice of the action, which will be heard next Monday morning by Judge James.

James Hannon, living at Fifteenth and Walnut streets, is married to his home. He is an aged man, feeble, and with his mental faculties not as bright as they once were. He left home and went into the attic and left his lawyer, and has not been seen since.

Hoping to divert a portion of the road on the Los Angeles-Long Beach boulevard from American Avenue, the residents of Atlantic Avenue between Columbia street and the ocean, petitioned the City Council to order an oil macadam paving on the section of street with an ornamental bridge 500 feet long, over the Atlantic street, which is a good below grade. The thoroughfare is at present improved with a petholithic pavement, and this addition would make the improvement of Atlantic Avenue complete.

INCENSE ON WING.
Percy Smith, a realty operator, today in a large supply of disinfectant today for use in his home. His dog chased a fleet animal of some kind into the house and up into the attic and left it there. Smith decided that it was a very large rat from the noise it made, and set a gopher trap. He caught it, and as it thrashed about with the trap distributed considerable of its peculiar perfume. Smith hired a specialist to kill the rodent, and then proceeded to fumigate.

The coroner's jury examining into the death of Mrs. Clara W. Smith, who was killed by a Southern Pacific train Monday evening, today returned a verdict of accidental death, exonerating the Southern Pacific from the responsibility for the accident. The body of Mrs. Smith was found in the Southern Pacific tracks near the intersection of Pacific and Broadway streets. The accident occurred on the Pacific tracks near the intersection of Pacific and Broadway streets. The accident occurred on the Pacific tracks near the intersection of Pacific and Broadway streets.

George Law, who hired a horse and buggy from a local barn and almost drove the animal to death between this city and San Pedro, was given a suspended sentence of three months in the County Jail. The animal was killed by a Southern Pacific train Monday evening, today returned a verdict of accidental death, exonerating the Southern Pacific from the responsibility for the accident. The body of Mrs. Smith was found in the Southern Pacific tracks near the intersection of Pacific and Broadway streets. The accident occurred on the Pacific tracks near the intersection of Pacific and Broadway streets.

HURT BY RUNAWAY.
William Kemp of No. 711 Lake Avenue, Pasadena, yesterday had a runaway accident in Ontario Park about 1 o'clock this afternoon. He was driving a team down Marlene Avenue and when nearing Huntington Drive animals became frightened at the car and ran away, throwing the driver out. The ambulance of Turner & Stevens was called and he was taken to Pasadena Hospital, where he was found to have a fractured shoulder, a slight concussion of the brain and other minor bruises.

Kindole will make baby strong.
GLENDALF.
GLENDALF, Sept. 28.—The Glendale and Pacific Railway Company has perfected its Verduze Park branch by adding turnouts, switches, and putting in two miles of feed wire for additional power. Extra cars are put in on Saturday and Sunday. The company has leased for three years the building on Third street and Glendale Avenue, formerly occupied by the Bank of Glendale, and will arrange it for offices and a public waiting-room.

The Glendale Chamber of Commerce will give a literary and musical entertainment at L.O.O.F. Hall next Tuesday evening at 8 o'clock. The entertainment will be given by the Los Angeles Chamber of Commerce, which will be the principal speaker. The new organization Glendale Municipal Band will furnish music.

The City Trustees and the Library trustees are taking the preliminary steps in campaign for securing a Carnegie library.

ROAD AND SNORT.
Evidence that the former employees of the Craig ship plant are becoming desperate and that more strenuous measures to intimidate the present employees are contemplated was evidenced last night by a meeting of the strikers at the Labor Hall, and several loud speeches were made by visitors from Los Angeles. This morning there were fourteen pickets on duty at the plant, but they were careful not to violate the picketing ordinance.

School Superintendent Graham today received a message from County Superintendent Koppel notifying him of his appointment as one of the California Council of Education, a body made up of school superintendents, and asking him to make arrangements to attend the meeting of the Council next Saturday.

REDONDO BEACH.
CITY TO GET
TOLL OF SEA.CLERK INSTRUCTED TO ASK FOR
PARTICULARS.

Under New Conditions Municipality Will Collect Revenue for Wharfage Which Has Hitherto Gone into the Coffers of the County—Move for Greater Winter Traffic.

REDONDO BEACH, Sept. 28.—The City Trustees last night instructed the City Clerk to ask the Los Angeles and Redondo Railway for a report of the cost of wharfage, cost of repairs, tonnage, rates and revenues for the year ending June 30 last.

This was ordered for the purpose of fixing the rates of wharfage and providing for the issuance of licenses authorizing the taking of tolls. This is the first time this revenue will accrue to the city of Redondo Beach from the wharves, it having heretofore reverted to Los Angeles county, and is the result of an election held over a year ago, at which time the city annexed a strip along the water front extending three miles out to sea.

PULL FOR WINTER TRADE.
The beginning of an organized effort to attract winter tourists to this city was made in the meeting last evening of prominent business and realty men, called at the instigation of R. H. H. Meyer, a local realty man. This meeting was well attended. Ways and means were discussed whereby owners of hotels and apartments might be induced to place their premises in an attractive, comfortable and sanitary condition for winter occupancy.

The matter will be further taken up with the purpose of keeping resorts open instead of closing at the end of the summer season, as heretofore. In this connection pavilion and bathhouse manager A. L. Walton announced that the band concerts on Saturday afternoon, Sunday afternoon and evening will be continued, with a sixteen-piece band, and special features will be provided for each concert.

Kindole—The ideal baby food.
SANDOVAL HELD.
Result of Preliminary Examination in Monrovia in Case of Man Blain Duarte.

MONROVIA, Sept. 28.—The hearing before Justice Glover of Domingo Sandoval and Miguel Romero, charged with "wilful murder of Terrible Unna," at Duarte on the night of the 19th inst., was concluded this morning. Romero was discharged and Sandoval held for trial.

No motive for the wilful slaying of Unna, a Filipino, was discovered. The evidence is to the effect that he was slain by Sandoval in self-defense and that Sandoval was not armed at the time. That his shot fired in the dark was fatal.

Unna was called to the stand and his straightforward story freed Romero from all suspicion of complicity. His version of the affair agreed substantially with the story of Sandoval. He admitted having a .22-caliber revolver, the same caliber as the bullet which killed Unna, but he swore that he did not fire at or aim at any one until he and Romero were attacked by Unna and Vivrio. It was not until Romero had been knocked down by a stone that he opened fire.

STUDENTS ELECT.
The annual meeting of the student body of the High School was held this afternoon and resulted in the choice of the following officers: Robert E. East, president; Miss Mavis Davis, vice-president; Miss Mary Flowers, secretary; and Walter Dismukes, treasurer.

WHITE GIRL WEDS JAP.
TACOMA (Wash.) Sept. 28.—Miss Rayna Reed of Salt Lake and K. Toda, a Japanese merchant of Los Angeles, were married yesterday at Tacoma. The bride was accompanied by her father, and the groom by his Japanese relatives.

LIQUID CURES ECZEMA.
WHERE SALVES FAIL
In regard to skin diseases, medical authorities are now agreed on this: Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid.

WASH THE GERMS OUT.
A simple wash: A compound of Oil of Wintergreen, Thymol, and other ingredients as combined in the D. D. D. Prescription. This penetrates to the disease germs and destroys them. Ban soothes and heals the skin as nothing else has ever done.

A 25 cent trial bottle will start the cure, and give you instant relief. **SUN DRUG CO.'S STORES.**

MINING CONGRESS.

(Continued From First Page.)

A small portion of the vein being worked was abandoned, and there was a loss of a large percentage of the profit, which would make it extremely difficult to develop it with future operations. It is with the aid of the government that the conservation of natural resources that the government proposes to own the mineral wealth of the country. The people of the west have thought of deriving any financial benefit from this policy of conservation. Dr. Holmes' talk was discussed by those who heard it from many points of view during the afternoon. They were in the opinion of the majority that it was a good idea to have a new policy of administering mineral wealth will be adopted. The conservation of natural resources will be the basis of the new policy, and the fight will then be on in earnest. The conservation of natural resources will be the basis of the new policy, and the fight will then be on in earnest. The conservation of natural resources will be the basis of the new policy, and the fight will then be on in earnest.

HOLMES' ADDRESS.

The Bureau of Mines was created by Congress as the result of a general demand coming not only from the mining industry, but also from the general public in different parts of the country. The chief purpose of the Bureau of Mines is the development of greater efficiency and economy in mining. It is in view of the fact that the mining industry has no means of enforcing and carrying out its recommendations, the action is taken to have it carried out in the accomplishment of these purposes. It may be said in answer that the Bureau of Mines is not a government authority, except that based upon enlightened public opinion. The Bureau will endeavor to aid in carrying out these purposes by its own investigations and inquiries into the mining industry and treatment practices being followed in different mining countries and into the fundamental chemical and physical problems that serve as a basis for more efficient metallurgical operations. It will also endeavor to indicate how all branches of the industry may become better adapted to the requirements of the future, and to the adoption of its recommendations. The new Bureau will do everything in its power to encourage private mining corporations to investigate their own local problems, and to report to the Bureau of Mines. The Bureau of Mines will also investigate the mining industry with the view to lessening a loss of life and waste of resources. Every one responsible for the safety of the mining industry will be held to the fact that its first duty is to aid in lessening the loss of life in the mining industry.

PROGRESS IS BEING MADE.

The fact that the loss of life in the American mining industry is less than 25 per cent. during the past few years. If the miners, mine owners and mine inspectors, the conservation of natural resources will be the basis of the new policy, and the fight will then be on in earnest. The conservation of natural resources will be the basis of the new policy, and the fight will then be on in earnest. The conservation of natural resources will be the basis of the new policy, and the fight will then be on in earnest.

SOCIAL FUNCTIONS.

The luncheon at the Alexandria was an expression of hospitality on the part of the Chamber of Mines. In the afternoon another social function took place in the hotel parlors. The guests of the visiting members were entertained at a reception in the parlors, followed by a tea. There was a receiving line of twenty-five women and the affair should have been made an adjunct of the fashion show. Music and flowers and beautiful gifts contributed to a dazzling display that attracted the attention of the press and the public.

THE FACT THAT THE CONGRESS.

The fact that the Congress is in session in a marked degree in stimulating the conservation of natural resources will be the basis of the new policy, and the fight will then be on in earnest. The conservation of natural resources will be the basis of the new policy, and the fight will then be on in earnest. The conservation of natural resources will be the basis of the new policy, and the fight will then be on in earnest.

THE REAL QUESTION WHICH NOW.

The real question which now confronts the American people with reference to the utilization of the mineral resources of the public lands is, shall the private ownership of the mineral portions of the public domain be developed on the basis of individual ownership under a system of leasing? Against a Federal mineral leasing system, a policy of perpetual government land ownership stands the argument of past experience voicing the fact that no self-governing and free people can carry out the conservation of natural resources in that direction. New Zealand and Australia have a permanent established system of government ownership of the mineral resources of the mining industry in the United States have unquestionably been ready due to individual ownership, initiative and enterprise.

THE PERMANENT RETENTION IN GOVERNMENT.

The permanent retention in government ownership of vast areas of lands in the Western States, and the perpetual collection of royalties to be paid into the Federal treasury from the States, is a tax that is particularly repugnant to a large majority of the people of the region affected, as representing a direct tax, though royalties, upon mineral production in Western States not like production in other parts

SURELY SETTLES UPSET STOMACHS.

INDIGESTION, GAS, HEARTBURN AND DYSPEPSIA GO.

Hundreds of Readers of The Times Will be Forever Rid of Stomach Trouble After Taking a Little Diapasin, Which Promptly Stops Food Fermentation and Regulates the Digestion, Even in the Worst Out-of-Order Stomach.

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pape's Diapasin, and realize not only immediate, but lasting relief.

This harmless preparation will do anything you want and overcome a sour, gassy or out-of-order stomach five minutes afterward.

If your meals don't sit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your Pharmacist a 50-cent case of Pape's Diapasin and take a dose just as soon as you can. The result will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Distension, Indigestion, griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapasin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large 50-cent cases contain more than sufficient to thoroughly cure almost any case of Dyspepsia, indigestion or any other stomach disorder.

of the Union, and strikes them as being not only unfair but contrary to the spirit of our institutions and the established policy of our people.

"Transportation questions are to be examined through ownership of railroads by the government, but through the control of railway corporations by the people. Furthermore, we have not lost sight of the efficacy of laws that aim at combinations in restraint of trade. These weapons are as effective in the western regions where the government still owns lands bearing mineral as in the East where the lands are owned privately.

"In conclusion, I would say that in the consideration of this important question we should have in mind the fact that there is a very decided difference of opinion on the subject which must be taken into consideration; that it is the duty of all good citizens, and particularly an association like this, to have a fair and open discussion of the subject and a frank expression of opinion.

REPORT ON LAW REVISION.

Will L. Clark, acting chairman of the Committee on the General Revision of Mineral Land Laws, made a report of the revision of laws regulating the acquiring of mining claims. The committee considers to be of momentary importance in particular the following abuses, at present existing, pointed out:

Confusion as to tunnel rights.

The location of an unlimited number of claims by one person.

The abandonment of claims and relocation by the same locator.

Location by proxy.

The uncertainty of placer location.

That committee recommends that the Mining Congress take the matter up diligently, with the view to securing legislation which will remedy existing abuses and better the condition of the owners of mining properties.

GLENDORA.

SHOT IS FATAL TO BOY FRIEND.

Boy, Supposing That Firearm is Empty of Cartridge, Pulls Trigger and Bullet Passes Through Breast of Companion—Death Follows Within Few Minutes.

ACCIDENTAL DISCHARGE KILLS GLENDORA LAD.

GLENDORA, Sept. 28.—Norman Norcross, 15-year-old son of I. Norcross, was accidentally shot and killed this afternoon by his 16-year-old friend, John Heinrich, Jr.

Norcross was sitting at a distance of about two feet from his friend when the latter pulled the trigger of a .22-caliber repeating rifle under the impression that the gun was not loaded. The boy died twenty minutes after the bullet had struck him.

Norcross with two other boy companions, Claude and Hally Minkins, was going hunting when they stopped to rest. Under the impression that Claude had removed all of the cartridges, John pulled the trigger, the bullet striking Norcross in the right breast. Ten minutes after a doctor arrived, he was dead.

The rifle, which belongs to Claude, is a late model. The chamber was full of cartridges when the boys entered the tent. Claude slipped the cartridges out of the chamber preparatory to cleaning the rifle, but forgot to remove the one from the barrel. He gave the gun to John, who cleaned it without noticing the cartridge that remained. Pulling back the hammer, he let it fall with the remark, "Now it'll work fine."

Norcross was sitting on a bed with his side toward John when the cartridge exploded. The bullet took a downward course across his chest and presumably entered his heart. Arising, the wounded lad walked to another bed about four feet away upon which he fell.

The doctor who rushed for his mother, who called for help. Dr. Ellis of Arusa was summoned, but when he arrived the wounded boy was beyond saving.

The body was taken to Corvina where an inquest will be held tomorrow. Norman Norcross is the only boy in a motherless family of four children.

OCEAN PARK.

OCEAN PARK, Sept. 28.—Mrs. Ida Arzys, who died last night at the California Hospital, Los Angeles, following a critical surgical operation, was the wife of J. T. Arzys of No. 2619 Third street. She was 54 years of age and is survived by three sons, T. S. W. A. and J. R. Arzys, and one daughter, Mrs. George L. Nelson of Wallaces, who is Mrs. Arzys.

The Corset Demonstration

On Living Models—Fourth Floor
Hundreds of women have profited by their visit—have learned the actual relation of the corset to the figure—and to the well-fitting gown.

STAMPED TOWELS
Really Worth 40c. **29c**
Large size huck towels—extra good quality. These are stamped on each end ready to be embroidered. A special value today at 29c.

Self-Sharpening Shears of best carbon steel
—guaranteed to be free from defects; worth 50c; only 19c in The Basement Store today.

Why pay the "old time" HIGH PRICE for your machine when you can get an "Angelus"—the best strictly high-grade machine on the market for a dollar price? These have all the very latest improvements—give the most perfect satisfaction—and sell from \$10 to \$40 less than others!

A 10-Year Guarantee against wear, tear, loss through water or fire! Get one on the Hamburger Club Plan.

\$2 down and the machine is delivered to your home. \$1 a week until the remaining balance is paid.

The "Angelus" Crescent \$34.50

A beautiful model with a high finish and the most perfect mechanism. Exclusive dealers would charge at least \$60.00 for it. It is made exclusively for us—embodies the best materials and has an ideal stitch.

The "ANGELUS AUTO-SECRETARY" is a combination dual sewing machine. Only the choicest select quartered oak is used in its construction. It has the only mechanically perfect automatic lift and head. A machine worth \$85—but one which we sell for only \$34.50.

YOU ARE GROWING YOUNGER MOTHER
Thousands of mothers are looking younger. Their hair is a new growth of soft, glossy, luxuriant hair. Why should you look old before your time, when you can look years younger by using

WYETH'S SAGE SULPHUR HAIR REMEDY

It is Positively Guaranteed to Restore Faded and Gray Hair to Natural Color

If other "so-called" Restorers have failed, don't give up hope, but give WYETH'S SAGE AND SULPHUR HAIR REMEDY a trial. You run no risk. If it is not exactly as represented, your money will be refunded.

PROFIT BY OTHERS' EXPERIENCE

Gray Hair Restored
Cover Hair on a Bald Head
For two or three years my hair had been falling out and getting quite thin until the top of my head was entirely bald. About four months ago I commenced using WYETH'S SAGE AND SULPHUR HAIR REMEDY. The first bottle seemed to do some good and I kept using it regularly until now I have used four bottles. The whole top of my head is now covered and keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

STEPHEN BACON, Rochester, N. Y.
